

DNANET®

forensic tagging systems

Asset and Valuable Marking Kit

Recognizing that DNA-based evidence is the cornerstone of modern-era law enforcement, Applied DNA Sciences has developed the ultimate asset and valuable marking tools.

DNANet® helps to expand and strengthen any community security effort by providing a means of directly linking valuables and criminals to crimes. Valuables and assets are tagged with an indelible, fluorescing DNA-marked liquid.

The DNANet mark facilitates the rapid return of lost or stolen goods to their owner. As a crime is investigated, detection of a fluorescing DNANet mark indicates that an item is registered. This assists police in linking offenders and stolen items to a specific crime scene, creating a greater ability to identify and convict.

valuable protection | crime deterrence | recovery and return of property

- Kit Contents**
 DNANet® Marking Liquid (Marks ~100 Items)
 Home Warning Decals (2)
 Vehicle Warning Decals (2)
 Website Registration Reminder Card
 Application Instructions

Easy to Use - apply to the surface of your valuables.

Quick Trace in the Field - under UV light, the DNANet mark emits a bright red signal, making it easy to identify on the spot.

Mark Application Instructions

1. Ensure that the surface to be marked is clean and dry before application.
2. Shake DNANet[®] vial well. Apply in temperatures between 25 and 85°F.
3. Apply DNANet to inconspicuous areas such as the underside of items or areas that are not often touched.
4. Marking textured or grooved surfaces yields the best result.
5. Apply a thin layer of DNANet to an area at least 1/4-inch square in size.
6. Allow to dry thoroughly, and you're finished.
7. DNA-Protected decals can be applied to a clean window surface in your home or on your vehicle.

Avoid Application to:

- Electrical connections or contacts.
- Screens: TV, computer, smartphone or any other screen surface
- Areas that are routinely exposed to sunlight or moisture
- Moving parts and areas that are subject to wear and tear
- Surfaces that are wet or frozen.

Product Handling, Safety and Storage

- Use in a well-ventilated space.
- Avoid liquid contact with skin and eyes.
- Avoid open flames.
- Do not ingest.
- Keep out of reach of children.
- Do not use after the "use by" date listed on the bottle.
- Store unused solution in cool, dark conditions (ideally between 40 and 50°F).

Best Product Performance can be achieved **ONLY** when used and stored as directed.

Don't forget to register your mark!

You must register for your valuables to be protected!
